

Ricardo Legarda-Sáenz

Faculty of Mathematics. Universidad Autónoma de Yucatán

97110 Merida, Yucatan. Mexico.

Telephone: +52 (999) 942 3140.

rlegarda@correo.uady.mx

Summary of qualifications

- Doctoral degree in optics with postdoctoral experience in optical metrology.
- Independent research-work with publications in peer-reviewed journals and proceedings.
- Experience with moiré deflectometry, camera calibration and fringe processing techniques.
- Skills in numerical methods for image processing, and programming with C/C++, MatLabTM, and CUDATM.
- Native speaker of Spanish, fluent speaking of English, and basic knowledge of German.

Scientific interests

My principal interest is the applications of optical shape measurement for the evaluation of complex objects. At present, I am working in the calibration and measurement of a fringe projection system, and the measured data matching from different views and/or different devices. A second interest is the processing of fringe patterns using inverse-problems approach.

Education

- Doctoral degree in Sciences (Optics), Centro de Investigaciones en Óptica. A. C. (Mexico), 2000.
 - Distinction for academic performance.
 - Thesis work related with computational techniques for the moiré deflectometry technique:
 - a) simulation of geometrical propagation of light through an inhomogeneous medium

using ray-tracing techniques, and b) processing the experimental data generated by the technique.

- Master degree in Electronic Engineering (Computation), Instituto Tecnológico de Chihuahua (Mexico), 1997.
 - Special recognition for degree examination.
 - Thesis work related with character recognition using invariant moments as descriptors and neural networks as classifier.
- Bachelor degree in Industrial Engineering (Electronic), Instituto Tecnológico de Chihuahua (Mexico), 1991.

Professional experience

2004–present Faculty of Mathematics, Universidad Autónoma de Yucatán, Mexico.

Profesor Investigador Titular C (equivalent to Associate Professor).

- Teaching on graduate and undergraduate courses related with scientific computing and image processing.
- Researching in fringe processing techniques, 3D reconstruction and camera calibration.
- Supervision of graduate and undergraduate thesis.
- Administration duties related with graduate faculty advising and graduate program curriculum development.

2001–2003 Bremer Institut für Angewandte Strahltechnik (BIAS), Germany.

Guest Researcher (postdoctoral)

- Researching in fringe processing techniques, writing technical report and research paper, and development of software tool for the Fringe ProcessorTM software (including its help file and user-manual chapter).
- Software development for shape measurements for the Fringe ProcessorTM software.
- Development of calibration methods applied to fringe projection technique.

2000 Centro de Investigaciones en Óptica. A. C., Mexico

Research Associate

- Assisting in the research activities of the optical metrology group in CIO.
- Researching related with my doctoral work.

Teaching

I have had experience in teaching large undergraduate classes as well as small specialist graduate courses.

Currently: Animation and Simulation in 3D (Undergraduate course).

Graduate courses: Parallel programing with CUDA, Scientific Computing, Digital Image Processing, Numerical Optimization, Research Seminar.

Undergraduate courses: Computer Graphics, 3-D Vision.

Academic Awards and Distinction

- Special distinction for Master Degree examination. Instituto Tecnológico de Chihuahua, November 1997.
- Distinction for academic performance of the Doctoral Program. Universidad de Guanajuato, December 1999.
- Recognition of Full Time Professors with Desirable Profile. Secretaria de Educación Pública (Mexico), since 2006.
- National System of Researchers Level I. CONACYT (México), 2005 - 2015.
- National System of Researchers Level II. CONACYT (México), 2016 - 2019.

Reviewing committees

Journal and Conferences papers: Optical Society of America; Optics and Laser Technology; Journal of Faculty of Engineering, Universidad Autónoma de Yucatán (Mexico); Optical Section of the Annual Meeting of the Mexican Society of Physics; Computer Congress, Information Technology, Biomedical and Electronics CONCIBE 2005 (Mexico); 22nd Congress of International Comission for Optics on Mexico 2011.

Grant applications: Ciencia Básica SEP-CONACYT, Fondos Mixtos CONACYT (México).

Graduate admission committees: Master degree program of the Faculty of Mathematics, Universidad Autónoma de Yucatán.

Professional affiliations

- SPIE, International Society for Optics and Photonics, member since 2002.
 - Organizing Committee of the 8th International Symposium on Laser Metrology, February 2005.
 - Organizing Committee of the V Simposio "La Óptica en la Industria", Septiembre 2005.
 - Organizing Committee of the VI Simposio "La Óptica en la Industria". March 2007.
 - SPIE Visiting Lecturer. Scientific Computing Course (20 hrs) at the Student Chapter of the University of Guadalajara. January 2014.
- Optical Society of America, member since 2002.
 - Peer reviewer of scientific manuscripts.

- Mexican Optical Academy, member since 2015.
 - Participation in the election committees of Board of Directors.
 - Topical editor of the proceedings of the XXV Annual Meeting of the Mexican Optical Academy (2012).
 - Topical editor of the proceedings of the XXVI Annual Meeting of the Mexican Optical Academy (2013).
